

A trusted advisor for the protection you need

For **American Family Insurance** agent Mike Sedlak, getting educated and finding a trusted advisor are the best ways to get the right insurance coverage to protect your family.

"A lot of people think that all insurance agencies are the same. They are not," Mike said. "What we pride our agency on is educating our clients, taking the time to explain what the coverages inside a policy do for you. Then we give customers options. Because with more information, you can make better informed decisions about the protection that is best for your family."

As an agent, Mike's job is to be an insurance advisor, he said. Mike sits down with his clients and goes over the coverage in a policy, custom tailoring their insurance to their own needs.

"We want to go over the what ifs before something happens because if it happens and you don't have the right coverage in place, you're the one left holding the bill," Mike said. "No one wants to overpay for insurance, but there is value in having an agent that is looking out for your best interests," he said.

Mike Sedlak and his team have been in Wildwood for almost 10 years, and he's glad to be a part of the community. A member of the West County Chamber, the Wildwood Lions Club and formerly, president of the Wildwood Business Association, Mike is focused on serving his neighbors.

"We're not just an insurance sales office but part of the community, and we give back," he said.

American Family provides life, home, business, auto, umbrella insurance and more. Need insurance? Mike and his team can help.
