

Where quality dental care is a family tradition

When it comes to personal dental care, **Ballwin Dental Care** understands the value of treating clients like family. In fact, this family owned and operated general dental practice has transformed more than 30,000 smiles in West County over the last 50 years.

Dr. Kimberly Simonds purchased the practice in 2015, following in her father's footsteps who founded the practice in 1973. With assistance from Dr. Maya Habibi, Dr. Jessica Chellis and Dr. Nolan Finney, the team at Ballwin Dental Care provides an array of services including preventive, restorative and cosmetic dentistry. Ballwin Dental Care also features appliances like Invisalign®, and advanced dental technologies like the Itero Scanner, intraoral cameras, digital X-rays and the Wand®, a computerized anesthetic delivery system.

Ballwin Dental also has a new location which effectively quadrupled the size of its office, so that hypothetically, a family of five could schedule a cleaning all at once. Ballwin Dental Care also has extended their hours to include hours before and after school or work, so no one has to rearrange their schedule. They also offer Saturday appointments.

For dentists who are experienced, use cutting-edge technology, offer affordable financing and provide exceptional care, call Ballwin Dental Care. They truly offer the highest quality dental care available and deliver it with a genuine concern for your comfort and oral health.

Also take advantage of the New Patient Coupon. It includes a comprehensive exam, cavity-detecting digital x-rays (up to 4), a professional cleaning and an oral cancer screening – a \$330 value for only \$99. Patients with insurance can take \$100 off, depending on the insurance. Some restrictions apply.
