At **Mid America Audiology**, they know hearing loss isn't always easy to talk about, but it is a fact of life. Approximately one in three people between the ages of 65 and 74 has hearing loss and nearly half of those older than 75 have difficulty hearing.

Hearing well, however is an important part of living your best life. Taking that first step to pick up the phone sooner rather than later can make a world of difference, said Lauren Kraft, regional operations manager.

Fortunately, Mid America Audiology has offices throughout the St. Louis area where you will meet Doctors of Audiology Amy Krueger, Anne Murray, Chelsea Tiskos and audiologist Michelle Smith.

"When someone calls to schedule an appointment, we can get that person in, generally within a week," Lauren said. "We make them feel comfortable and after the test, the audiologist will go over their options based on the hearing test results. Mid America has a wide range of choices in hearing aid brands, styles, and technology to fit each person's needs and budget. And the results are rewarding – the call of birds, the rustle of leaves, the sound of conversation and a better life."

Additional, convenient locations include 12352 Olive Boulevard in Creve Coeur (314-514-7800) and 1475 Kisker Road Suite 270 in St. Charles (636-442-4467). Call or stop by today!
