

## Call Clemente for all your insurance needs

*Lisa Clemente*

There's a lot to consider when purchasing insurance – that's why you want to do business with an experienced professional you can trust. Lisa Clemente is that professional. Lisa began working with Allstate more than 30 years ago, first in a claims office and in 2002 as the owner of **Allstate - Clemente Insurance Agency**.

Her experience gives her an insider's knowledge of the claims process and she knows the policies she sells intimately.

"I love helping customers understand their coverage options and identifying risks or gaps, all while offering choices that fit their unique needs and budget," Lisa explained.

Lisa works with clients in both Missouri and Illinois. She and her husband/partner, Joe, are focused on providing honest, personal attention to their clients Monday through Friday with 24-hour

agent accessibility through the company's national call line.

"We are a family business. It is just me and my husband here – which means when you call here you always get to talk to an agent – never support staff. This guarantees personal interactions with all of our customers," Lisa said. Winnie, the family Shih Tzu, is the third member of the Clemente team.

"I am so excited that we are now offering discounts for low mileage drivers like remote workers, stay-at-home parents and seniors. We've also got discounts for safe drivers and homeowners with newer roofs," Lisa said. "We have competitive rates for auto, homeowners, condo, renters, boat, motorcycle, atv and life insurance. Our mission is to get to know our clients so we can craft policies that perfectly protect their world. We want every customer to feel confident that the coverage they have is exactly what they need."
