

Experience and education you can count on

Janet Judd, REALTOR®

Long-time West County resident, Janet Judd, has been a full-time REALTOR® with **REMAX** for over half of her successful career. She has earned numerous educational designations from the National Association of REALTORS®. This is a giant point of difference between Janet and other agents. For her clients, all that knowledge translates into trust, teamwork and successful transactions.

"I've been selling real estate for 40 years and still love what I do!" Janet exclaimed. "Because I live where I work, I routinely see my clients out in the community. When I do, I want them to be glad to see me."

There's no greater compliment than to have happy customers refer you to their friends and family members. Janet is proud that many of her clients are second- or third-generation referrals.

"It says a lot about your knowledge and service when a parent will recommend you to their child. We all want the best for our kids," Janet said. "I think one of the reasons that so many homeowners trust me with their home buying or selling is because I know our residential contract inside/out. My experience benefits sellers and buyers during their transaction."

Janet's experience includes:

- Being elected the 2021 president of Missouri REALTORS®
- Currently serving as a City of Ballwin Alderman
- Past president of St. Louis REALTORS®

"Serving on national, state and local levels keeps me primed and educated for my clients," Janet said. Janet is a former police officer, a graduate of the FBI Citizens Academy and a Missouri Real Estate Commissioner.
