

Castlewood Plumbing

New Name, Same Great Service

Castlewood Plumbing may be a new name, but it's still the same company, owners and service that made the former Thome Plumbing a welcome partner with customers for their home plumbing projects for 29 years.

Then, as now, it's the company's service that sets it apart. Castlewood Plumbing serves residential customers with personal attention from the start as well as the dedication to get the job done and get it done right.

Customers don't leave messages on a machine at Castlewood because an actual person answers the phone 24 hours a day.

Castlewood Plumbing features upfront pricing and same-day service. The business also customizes options for their customers so they can choose a plumbing solution that best serves their needs and budget.

As a family-owned business, the company protects and respects its customers' homes and spaces, and when they start a job, they follow through. They are there for their customers from the first phone call until the job is done.

Services include water heaters, sump pumps, water softener installation and service, general plumbing repair and more. Running water and sewers are essential to everyday life in their customers' homes and in homes across the country. The company protects their customers' health and safety with quality parts and professional installation. Castlewood Plumbing takes care of everything water-related, and they do it with care.

Proudly serving Wildwood and the surrounding communities, call on the Knight to fix it right!
