

Quality Floor Coatings

By Gipperich Painting

Gipperich Painting, a trusted name in residential painting, now has an additional service for your garage – *Quality Floor Coatings*. For 28 years, owner Jeff Gipperich has provided painting, bathroom remodeling and finish carpentry work for West County residents. Now, he's expanding his services. The full flake Polyaspartic floor coating can turn a stained/ugly concrete garage floor into an attractive, colorful improvement that improves the value of your home. "It's extremely easy to keep your floor clean and helps keep dirt from being tracked into the house. Oil and chemical spills are easy to clean up, and the floor is extremely durable," he said. For more information and a free estimate, call or email Jeff.
