Their welcoming home-like environment provides specialized care for those living with various forms of dementia. They have a neighborhood concept built to care for a total of 60 people, whom they call neighbors. The concept allows their compassionate dementia-trained partners to care for 15 neighbors in a setting with all the home-like features. The kitchen, dining room and living room with a cozy fireplace are all surrounded by spacious private and companion rooms. The secure Courtyards provide a beautiful, safe space for gardening, bird watching or just spending time soaking up the sun when weather permits.
