

## ***Customer service from a bank that cares***

*Brenda Bader Tucker*

At **Peoples National Bank**, people are more than just customers; they're friends and neighbors. That's why great customer service is at the heart of everything they do.

"We care," said Metro Regional Manager and Senior Vice President Brenda Bader Tucker. "We care about each and every client. We want them to know they can pick up the phone, reach a person and get an answer for their banking needs."

Visitors can also come in, enjoy freshly brewed coffee and discuss their financial needs with members of an experienced banking team, like Brenda. She has 43 years of banking experience, and enjoys helping clients find financial solutions for their needs.

From businesses of all sizes to individuals looking for help with personal accounts, Peoples National Bank caters to a wide array of clients. They keep their century-old tradition of putting people first by customizing banking solutions to individual wants and needs. From personal checking to treasury management, staff can help with everything from streamlining business accounts to assisting with lending needs by introducing new products and providing innovative solutions based on individual objectives rather than pre-determined banking packages.

"We sit down, and we tailor the products to fit their needs," Brenda said. "We take the time to get to know our customers."

At Peoples National Bank, they understand their clients' needs and have built a reputation for expertise in banking that's been 114 years in the making.

They also offer online and over-the phone banking options for clients who need immediate feedback, are on the go or enjoy the added convenience of portable banking. Regardless of your needs, Peoples National Bank and its experienced team are ready to help you today.
