I. INTRODUCTION

1. There is an inextricable link between preventing vehicle theft and protecting public safety. Making sure cars are not sitting ducks that are simple to steal protects both property and the public by keeping dangerous drivers in stolen vehicles off the roads. Two car manufacturers made a business decision not to equip the vehicles they sell with standard anti-theft technology, leaving counties and cities across the nation to deal with massive public safety consequences. Despite taking some initial steps to discourage thefts, Defendants have been unable to abate the dangerous crime wave unleashed on communities nationwide—a crime wave that continues to this day.

2. The days of “hotwiring” cars with nothing more than a screwdriver are largely over. In most recent car models, the ignition key emits a radio signal that prompts a computer in the car to disengage an immobilizer device and allows the car to start and move. But recent Hyundai and Kia models are a glaring exception.

3. For most model years between 2011 and 2022, long after other carmakers adopted immobilizer technology that ensured car ignitions could not be started without their keys, Defendants Hyundai Motor Company (“HMC”), Hyundai Motor America (“HMA” and, with HMC, collectively “Hyundai”), Kia Corporation (“KC”), and Kia America, Inc. (“KA” and, with KC, collectively “Kia”) intentionally ignored industry-standard practices in the name of profit. Specifically, upon information and belief, at all relevant times, Defendants designed, manufactured, and distributed the following automobile models without engine immobilizers: Hyundai Accent, Elantra, Elantra GT, Elantra Coupe, Elantra

1 Touring, Genesis Coupe, Kona, Palisade, Santa Fe, Santa Fe Sport, Santa Fe XL,
2 Sonata, Tucson, Veloster, Venue, and Veracruz; and the Kia Forte, K5, Optima,
3 Rio, Sedona, Seltos, Sorento, Soul, and Sportage. These vehicles, when
4 manufactured and sold without engine immobilizers, are referred to hereinafter as
5 the “Susceptible Vehicles.”

6 4. As a result, online videos demonstrate how easy it is to steal Hyundai
7 and Kia vehicles. In many cases, thieves use tools no more advanced than a USB
8 cable. Hyundai’s and Kia’s business decisions to reduce costs, and thereby boost
9 profits, by forgoing common anti-theft technology have resulted in a dangerous rash
10 of thefts. This vehicular crime wave has had a significant impact on law
11 enforcement operations, emergency services, and public safety, particularly for Fort
12 Wayne, Indiana (“Plaintiff” or “Fort Wayne”).

13 5. In the 1960s and 1970s, all that was needed for a successful vehicle
14 heist was a little brute force (to crack open the ignition column) and a key-shaped
15 object to start the car and drive off within seconds. Thanks to modern technology,
16 this is no longer the case for most cars.

17 6. Hyundai and Kia are unique among automobile manufacturers in
18 failing to install engine immobilizers in most of their cars. This is not because the
19 technology is somehow beyond them—in fact, Hyundai and Kia vehicles sold in
20 the European and Canadian markets incorporate vehicle immobilizers, because
21 regulations there expressly require them. In the United States, meanwhile, Hyundai
22 and Kia have decided to trade public safety for profits.

1 7. The difference between the proportion of Hyundai and Kia vehicle
2 models with immobilizers compared to all other manufacturers is staggering: for
3 the 2015 model year, for example, only **26%** of Hyundai and Kia vehicles in the
4 United States were equipped with immobilizers, compared to **96%** of vehicles from
5 all other manufacturers.¹

6 8. Hyundai and Kia are aware of the well-documented benefit of
7 immobilizer technology in preventing thefts, as they opted to install engine
8 immobilizers in their higher end models and in all of their 2023 vehicles.

9 9. Hyundai's and Kia's decisions to put profits over public safety have
10 had devastating consequences for Plaintiff and their residents. Defendants' failure
11 to install an industry-standard immobilization technology or other reasonable anti-
12 theft device, notwithstanding decades of academic literature and research
13 supporting the deterrent effects of such technology,² has opened the floodgates to
14 vehicle theft, reckless driving, crime spree, and endangered public safety.

15 10. This epidemic started in Milwaukee and spread nationwide. By June
16 2021, the Milwaukee Police Department reported that the theft of Hyundai and Kia
17 vehicles had increased by 2,500% since the previous year, with an average of 30
18

19 ¹ *Hyundai and Kia theft losses*, 38 HLDI Bull. 28, 2 (Dec. 2021),

(emphasis added).

22 ² Richard A. Posner, *An Economic Theory of the Criminal Law*, 85 Colum. L. Rev.
23 6, 1193–1231 (1985),
[https://chicagounbound.uchicago.edu/cgi/viewcontent.cgi?article=2827&context=](https://chicagounbound.uchicago.edu/cgi/viewcontent.cgi?article=2827&context=journal_articles)
[journal_articles](https://chicagounbound.uchicago.edu/cgi/viewcontent.cgi?article=2827&context=journal_articles).

1 cars being stolen per day.³ This trend then spread nationwide, enabled by millions
2 of Hyundai and Kia vehicles lacking immobilizers or other reasonable anti-theft
3 measures. As explained below, the crime wave continues to this day in communities
4 coast to coast—and those communities are left to pay the price.

5 11. Vehicle theft is not only a property crime affecting vehicle owners, but
6 it also constitutes a grave threat to public safety. Vehicle theft goes hand in hand
7 with reckless driving, which in turn can result in injuries and/or death. It can result
8 in increased violence, as many car owners are unlikely to part with their vehicles
9 willingly. It also consumes law enforcement and emergency resources and deprives
10 the public of safe streets and sidewalks.

11 12. The skyrocketing rate of Kia and Hyundai vehicle thefts has drastically
12 impacted city and police resources for Plaintiff. Fort Wayne's residents are
13 subjected to increasingly dangerous conditions on their streets, as car thieves (many
14 of them teenagers) are taking advantage of Hyundai's and Kia's failures and
15 engaging in reckless driving, endangering Plaintiff's employees, residents, and
16 property.

17 13. Defendants' conduct has created a public nuisance that could have
18 been avoided had they followed industry-wide standards and installed immobilizer
19 devices or taken other reasonable measures to deter thefts of their vehicles.
20

21
22 ³ James Gilboy, *Why Milwaukee Might Sue Hyundai, Kia Over Stolen Car*
23 *Epidemic*, TheDrive.com (Dec. 11, 2021, 11:15 AM),
<https://www.thedrive.com/news/43454/why-milwaukee-might-sue-hyundai-kia-over-stolen-car-epidemic>.

1 14. Among other harms, Plaintiff has been forced to divert funds and risk
2 officer and public safety to combat the growing burden caused by increased
3 Hyundai and Kia vehicle thefts and their many associated dangers, including
4 reckless driving.

5 **II. JURISDICTION AND VENUE**

6 **A. Subject Matter Jurisdiction**

7 15. This Court has subject matter jurisdiction pursuant to 28 U.S.C.
8 § 1332(a), as the amount in controversy exceeds \$75,000 and there is complete
9 diversity between the parties. Fort Wayne is regarded as a citizen of the State of
10 Indiana, for the purposes of diversity jurisdiction. *Bullard v. City of Cisco, Texas*,
11 290 U.S. 179, 187 (1933). Defendants HMA and KA are citizens of the State of
12 California, where they are headquartered and incorporated. Defendants HMC and
13 KC are both multinational automakers, headquartered in Seoul, South Korea.

14 **B. Personal Jurisdiction**

15 16. This Court has general personal jurisdiction over Defendants HMA
16 and KA because they are incorporated and headquartered in the State of California.
17 HMA and KA have transacted and done business in the State of California and in
18 this judicial district.

19 17. As detailed below, this Court has specific jurisdiction over HMC and
20 KC under the long-arm statute of California based on (1) their forum-related
21 activities from which this case arises; (2) the forum-related activities of HMC's
22 primary domestic subsidiary, HMA, which HMC substantially controls; and (3) the
23

1 forum-related activities of KC's primary domestic subsidiary, KA, which KC
2 substantially controls.

3 **1. HMC's and KC's Forum-Related Activities**

4 18. HMC is a South Korea-based company, and its substantial activities
5 directed at the United States give rise to and relate to Plaintiff's claims.

6 19. In a recent complaint to enforce its trademark rights, HMC represented
7 that it "currently designs, manufactures, markets, distributes, and sells a wide range
8 of automobile and related automobile parts to over 190 countries throughout the
9 world, including the United States, under the trademark 'Hyundai.'"⁴

10 20. HMC and KC design, manufacture, market, distribute, and sell the
11 Susceptible Vehicles under their registered trademarks "Hyundai" and "Kia,"
12 respectively. Between 2011 and 2022, when the Susceptible Vehicles were sold and
13 distributed in Plaintiff's jurisdiction, HMC and KC purposefully availed themselves
14 of the United States' legal protections by registering and maintaining registrations
15 with the United States government for trademarks associated with their vehicles and
16 parts, which HMC and KC used to identify and distinguish their respective vehicles
17 and parts in the United States, this district, and Plaintiff's jurisdiction.

18 21. HMC and KC purposefully availed themselves of markets in the
19 United States, including in this district and Plaintiff's jurisdiction, as each company
20 sells 500 thousand vehicles per year in this market through their respective domestic
21 subsidiaries, HMA and KA.

22 _____
23 ⁴ First Amended Complaint at 6, *Hyundai Motor Am., Inc. v. Midwest Indus.*
Supply Co., No. 2:17-cv-3010-JCM-GWF (D. Nev. Nov. 21, 2018), Dkt. No. 34.

1 22. HMC and KC manufactured over eight million of the Susceptible
2 Vehicles, which were delivered to HMA and KA for sale in the United States. Upon
3 information and belief, HMC and KC manufactured the majority of the Susceptible
4 Vehicles overseas in South Korea. However, HMC and KC segregated the
5 Susceptible Vehicles intended for sale in the United States and shipped those
6 vehicles to the United States with full knowledge and intent that HMA and KA
7 would distribute them across the country.

8 23. Rather than passively placing the Susceptible Vehicles into the stream
9 of commerce, HMC and KC intentionally targeted the distribution of the
10 Susceptible Vehicles into United States markets specifically, because engine
11 immobilizers are not expressly required by law to sell the vehicles in this country.

12 24. HMC and KC purposely availed themselves of markets in the United
13 States by regularly submitting applications to the Environmental Protection Agency
14 to obtain certification required for the sale of their vehicles in the United States.⁵

15 25. HMC and KC played instrumental roles in HMA's and KA's analysis
16 and decision-making processes related to the design and/or manufacture of the
17 Susceptible Vehicles lacking engine immobilizers sold in the United States.

18
19 ⁵ See, e.g., Letter from Hyundai America Technical Center to Director Linc Wehrly
20 re: Request for GHG credit for High Efficiency Alternator Technology (June 10,
21 2019), [https://www.epa.gov/sites/default/files/2019-07/documents/kmc-off-cycle-
22 ghg-credit-high-efficiency-alternator-2019-06-10.pdf](https://www.epa.gov/sites/default/files/2019-07/documents/kmc-off-cycle-ghg-credit-high-efficiency-alternator-2019-06-10.pdf) (writing on behalf of KC,
23 f/k/a Kia Motors Corporation); see also Letter from Hyundai America Technical
Center to Director Linc Wehrly re: Request for GHG Off-Cycle Credit for HVAC
Brushless Motor Technology in 2020 Model Year and later HMC vehicles (Dec.
15, 2020), [https://www.epa.gov/system/files/documents/2022-09/hyundai-ghg-
credit-pwm-hvac-blm-apl-2020-12-15.pdf](https://www.epa.gov/system/files/documents/2022-09/hyundai-ghg-credit-pwm-hvac-blm-apl-2020-12-15.pdf).

1 26. Upon information and belief, HMC and KC both were involved in
2 monitoring vehicle thefts of the Susceptible Vehicles, as reported by their respective
3 subsidiaries, HMA and KA.

4 **2. HMC's and KC's Control Over Their Respective**
5 **Subsidiaries**

6 27. HMC and KC exercise control over HMA and KA, respectively,
7 through both formal and informal means.

8 28. Upon information and belief, HMC and KC possess the power to
9 appoint board members to HMA and KA, respectively, and both HMC and KC have
10 exercised this power.

11 29. HMC operates a “Global Command and Control Center” with “walls
12 covered with television screens and computer monitors” that track “every operating
13 line at 27 plants in the world, in real time, 24 hours a day, 365 days a year.”⁶

14 30. The production chief for a Hyundai plant in Alabama noted that if there
15 is “a hiccup at any of those boards, headquarters wants to know what needs to be
16 done about it—right now[.]”⁷

17 31. Upon information and belief, KC representatives similarly monitor
18 Kia's global operations from HMC's Global Command and Control Center.
19
20
21

22 ⁶ William J. Holstein, *Hyundai's Capabilities Play*, 70 *Strategy & Bus.* 62, 67–68
(Spring 2013), [https://digitaledition.strategy-](https://digitaledition.strategy-business.com/publication/?m=6320&i=145911&p=70&ver=html5)
23 [business.com/publication/?m=6320&i=145911&p=70&ver=html5](https://digitaledition.strategy-business.com/publication/?m=6320&i=145911&p=70&ver=html5).

⁷ *Id.* at 68.

1 32. Senior executives in South Korea for HMC and KC also regularly visit
2 Hyundai and Kia plants and offices throughout the United States, including HMA's
3 and KA's California headquarters, both of which are located in this district.

4 33. The common executives for HMC and HMA frequently overlap. Jose
5 Muñoz, for example, is the current Global Chief Operating Officer of HMC and
6 serves as the President and CEO of HMA. Meanwhile, Brian Latouf serves as the
7 Global Chief Safety Officer for HMC and serves as the Chief Safety Officer of
8 HMA.

9 34. KC and KA also share executive employees. SeongKyu (Sean) Yoo
10 serves as President and CEO of KA, as well as Senior Managing Director of KC.
11 Additionally, HMC and KC have overlapping management, with Eui-Sun Chung
12 serving as the President of KC and the Executive Vice Chairman of HMC.

13 35. Last, HMC and KC control the public name and brand of HMA and
14 KA, respectively.

15 **C. Venue**

16 36. Venue is proper in this judicial district pursuant to 28 U.S.C. § 1391
17 because Defendants transact substantial business in this district. Venue is also
18 proper for HMA and KA because they are headquartered here, have research and
19 development offices here, and a substantial part of the events/omissions giving rise
20 to the claims occurred in this district.

III. PARTIES

A. Plaintiff

37. Plaintiff, the City of Fort Wayne, Indiana (“Plaintiff,” the “City,” or “Fort Wayne”), is a municipal corporation organized under the laws of the State of Indiana. The City is the seat of Allen County, Indiana.

38. After Indianapolis, the City is the second most populous city in Indiana with 263,886 residents as of the 2020 Census.⁸

B. Defendants

1. Hyundai Motor Company

39. Defendant Hyundai Motor Company is a multinational automaker headquartered in Seoul, South Korea. HMC, together with Defendants Kia Corporation, Kia America, Inc., and Hyundai Motor America, comprise the Hyundai Motor Group, which designs, manufactures, and distributes the Susceptible Vehicles referenced in this Complaint. HMC is the parent of Hyundai Motor America.

2. Hyundai Motor America

40. Defendant Hyundai Motor America is an automobile designer, manufacturer, distributor, and/or servicer of new motor vehicles under the Hyundai brand doing business within the United States. HMA is incorporated and headquartered in the State of California. HMA’s principal place of business is located at 10550 Talbert Avenue, Fountain Valley, California. HMA distributes,

⁸ *Quick Facts, Fort Wayne city, Indiana*, U.S. Census Bureau, <https://www.census.gov/quickfacts/fortwaynecityindiana> (last visited Oct. 24, 2023).

1 markets, leases, warrants, and oversees regulatory compliance and warranty claims
2 for Hyundai-brand vehicles through a network of over 800 dealers throughout the
3 United States from its headquarters in California. Defendant HMA engages in
4 continuous and substantial business in California.

5 **3. Kia Corporation**

6 41. Defendant Kia Corporation is a multinational automaker
7 headquartered in Seoul, South Korea. KC is the parent corporation of Kia America,
8 Inc. As of December 31, 2017, Defendant KC's largest shareholder was HMC,
9 which holds 33.88% of KC's stock.⁹

10 **4. Kia America, Inc.**

11 42. Defendant Kia America, Inc. is a manufacturer and distributor of new
12 motor vehicles under the Kia brand and is incorporated and headquartered in the
13 State of California. KA's principal place of business is located at 111 Peters Canyon
14 Road, Irvine, California. KA distributes, markets, leases, warrants, and oversees
15 regulatory compliance and warranty claims for Kia-brand vehicles through a
16 network of over 700 dealers throughout the United States from its headquarters in
17 California. Defendant KA engages in continuous and substantial business in
18 California.

IV. THE KIA HYUNDAI THEFT WAVE

A. Measures to Prevent Vehicle Thefts Have Existed for over a Century

43. Since the invention of gasoline-powered automobiles at the close of the nineteenth century, consumers have needed effective ways to keep their vehicles from being stolen. Thus, efforts to prevent theft or unauthorized access to automobiles have tracked vehicle development. In 1919, St. George Evans and Edward B. Birkenbeuel invented the first electric immobilizer/vehicle security system.¹⁰

44. Labeled the “Automobile-Theft Preventer” the purpose of Evans and Birkenbeuel’s invention was relatively straightforward: “to provide a means for automatically signaling an attempt to move an automobile by unauthorized persons; and to provide a means for locking the electric circuit open, in which case it will be impossible to move the car by its own power.”¹¹

45. Evans and Birkenbeuel’s immobilizer/alarm system consisted of a three-by-three switch panel that connected to the car’s battery, horn, and ignition. Upon exiting his vehicle, a driver could turn a few switches on the panel to different positions that, until released, would divert electricity to the horn instead of the ignition should an unauthorized user attempt to start the vehicle.

¹⁰ U.S. Patent No. 1,300,150 (issued Apr. 8, 1919).

¹¹ *Id.* at col. 1 ll. 14–20.

Sketches for Evans & Birkenbeuel's "Automobile Theft Preventer"¹²

46. The timing of the first immobilizer patent coincided with Congress's enactment of the National Motor Vehicle Theft Act, 18 U.S.C. § 2311 *et seq.*, which made the interstate transportation of stolen vehicles a federal crime. The law passed, in part, to respond to the growing number of automobile thefts around the country, especially in midwestern cities.

47. As time passed and technology advanced, the United States pursued further efforts to promulgate vehicle safety standards. These efforts were also fueled by the post-war rise in vehicle thefts among juveniles and young adults, "who took cars for joyriding and transportation."¹³

¹² *Id.* at figs. 1, 2, 3, 4.

¹³ Anthony Dixon & Graham Farrell, *Age-period-cohort effects in half a century of motor vehicle theft in the United States*, 9 Crime Sci. 17, 1, 3 (2020),

1 48. In 1966, Congress passed the National Traffic and Motor Vehicle
 2 Safety Act (the “Safety Act”), with the aim of administering new motor vehicle and
 3 traffic safety standards.¹⁴ Administration of the Safety Act was overseen by the
 4 newly created Department of Transportation through its sub-agency: the National
 5 Highway Traffic Safety Administration, f/k/a/ the National Traffic Safety Bureau
 6 (“NHTSA”).

7 49. Pursuant to its statutory authority under the Safety Act, NHTSA
 8 promulgated numerous federal motor vehicle safety standards (“FMVSS”). Among
 9 these standards, FMVSS 114¹⁵ requires minimum theft-protection standards for
 10 nearly all passenger vehicles in the United States:

11 S1. Scope. This standard specifies vehicle performance
 12 requirements intended to reduce the incident of crashes
 13 resulting from theft and accidental rollaway of motor
 vehicles.

14 S2. Purpose. The purpose of this standard is to decrease
 15 the likelihood that a vehicle is stolen, or accidentally set in
 motion.

16 S3. Application. This standard applies to all passenger
 17 cars, and to trucks and multipurpose passenger vehicles
 18 with GVWR of 4,536 kilograms (10,000 pounds) or less.

19 ...

S5.1 Theft Protection.

20
 21 <https://crimesciencejournal.biomedcentral.com/articles/10.1186/s40163-020-00126-5>.

22 ¹⁴ National Traffic and Motor Vehicle Safety Act, Pub. L. 89–563, 80 Stat. 718
 (1966).

23 ¹⁵ Standard No. 114; Theft protection and rollaway prevention, 49 C.F.R.
 § 571.114 (2010) (“FMVSS 114”).

1 S5.1.1 Each vehicle must have a starting system which,
 2 whenever the key is removed from the starting system
 3 prevents:

- 4 (a) The normal activation of the vehicle's engine or
 5 motor; and
- 6 (b) Either steering, or forward self-mobility, of the
 7 vehicle, or both.

8 . . .

9 S5.2.2 Except as specified in S5.2.4, the vehicle must be
 10 designed such that the transmission or gear selection
 11 control cannot move from the "park" position, unless the
 12 key is in the starting system.¹⁶

13 50. The main motivation for creating FMVSS 114 was NHTSA's
 14 recognition "that stolen cars constitute a major hazard to life and limb on the
 15 highways. The evidence shows that cars operated by unauthorized persons are far
 16 more likely to cause unreasonable risk of accident, personal injury, and death than
 17 those which are driven by authorized individuals."¹⁷

18 51. As early as 1966, studies showed "there were an estimated 94,000
 19 stolen cars involved in accidents"—with "18,000 of these accidents result[ing] in
 20 injury to one or more people."¹⁸ Accordingly, NHTSA recognized that "a reduction
 21 of the incidence of auto theft would make a substantial contribution to motor vehicle
 22 safety" and "protect the many innocent members of the public who are killed and
 23 injured by stolen cars each year."¹⁹ To address this safety risk, which is largely tied

¹⁶ *Id.*

 Fed. Reg. 83, 6,471 (Apr. 27, 1968), <https://www.govinfo.gov/content/pkg/FR-1968-04-27/pdf/FR-1968-04-27.pdf#page=1>.

¹⁸ *Id.*

¹⁹ *Id.*

1 to “car thieves who could bypass the ignition lock . . . the agency decided to require
 2 a device, which would prevent either self-mobility or steering even if the ignition
 3 lock were bypassed.”²⁰

4 52. An industry-standard engine immobilizer is the most effective way to
 5 satisfy this requirement, “because it locks out the engine control module if an
 6 attempt is made to start the vehicle without the correct key or to bypass the
 7 electronic ignition system.”²¹ Defendants’ choice not to use this industry-standard
 8 anti-theft technology predictably led to rampant car thefts and resulted in a threat to
 9 public safety and an ongoing public nuisance.

10 53. In the late 1980s and early 1990s, vehicle theft increased dramatically
 11 in the United States.²² The most common method for stealing a car involved
 12 bypassing the motor’s ignition switch, otherwise known as “hotwiring.” The graph
 13 below illustrates the dramatic rise in car thefts during this time period.²³

²³ *Id.* at fig. 1.

Vehicle thefts per 10,000 vehicles in operation, and vehicle theft arrests per 100,000 population, 1960-2014

54. In a precursor to the contemporary crisis, in the late 1980's to early 1990's, General Motors cars were stolen at elevated rates due to the relative ease with which a thief could bypass the ignition lock.²⁴ The ease with which those cars could be stolen spurred a trend of youths—some as young as ten years old—engaging in automobile theft and joyriding.²⁵

55. In the years that followed, General Motors, and nearly all other automotive manufacturers, adopted the anti-theft technology of passive vehicle immobilizers for cars distributed to the American market, which were patented in 1993.²⁶ Unlike Evans and Birkenbeuel's invention nearly 75 years prior, the vehicle

²⁴ See Tim Farley, *Thieves Put GM Models at Top of List*, *Oklahoman* (Sept. 11, 1988, 12:00 AM), <https://www.oklahoman.com/story/news/1988/09/11/thieves-put-gm-models-at-top-of-list/62639884007/>.

²⁶ Int'l Patent Publication No. WO 93/13968 (filed Jan. 7, 1993).

1 immobilizer would render the engine operable only “if the correct key having coded
2 information is used[,]” rather than relying on concealed switches or memorizing
3 keypad combinations.²⁷

4 56. In essence, the vehicle immobilizers of the 1990s worked by checking
5 the “fingerprint” of a car key based on electronic codes the key sends to the vehicle.
6 They prevented hotwiring by ensuring that a car would not start if the key was not
7 present—whether or not the ignition switch was turned or bypassed.

8 57. Although the mechanism behind the vehicle immobilizer was more
9 intricate than the original 1919 invention, the overall purpose remained the same:
10 “to make the vehicle more difficult to steal.”²⁸

11 58. The invention proved successful and, less than five years later, the
12 European Union mandated that all new passenger cars from 1998 onward be
13 equipped with an electronic engine immobilizer.²⁹ Similar mandates soon followed
14 in Australia, New Zealand, and Canada.

15 59. As engine immobilizers became the industry standard among
16 manufacturers, at least one study in the Netherlands suggested that immobilizers
17 “lowered the overall rate of car theft on average by about 40 percent during
18 1995-2008.”³⁰

19 ²⁷ *Id.*

20 ²⁸ *Id.*

21 ²⁹ Commission Directive 95/56/EC, 1995 O.J. (L286) 1 (amending Council
22 Directive 74/61/EEC to require the installation of immobilizers and alarm
systems in motor vehicles beginning in October 1998).

23 ³⁰ Jan C. van Ours & Ben Vollaard, *The Engine Immobiliser: A Non-Starter for
Car Thieves*, TILEC Discussion Paper No. 2013-001, SSRN (Jan. 14, 2013),
<https://deliverypdf.ssrn.com/delivery.php?ID=1270871200970291190780841070>

60. By 2011, studies concluded “that good quality electronic immobilizers [have] bec[o]me car theft’s killer technology” and proved to be 32.7% “more effective in reducing car theft than alarms” and 42.2% “more effective than central locking.”³¹

61. Equally critical, academic studies support the proposition that “[f]rom the early 1990s onwards, it gradually became less easy for adolescents to begin offending as an increasing proportion of vehicles became secure” because the “young offenders did not have the skill or experience to overcome the new vehicle security technology, particularly electronic immobilizers.”³² As the rate of young offenders decreased due to improved vehicle security, “fewer adolescents” went on to experience “criminal career onset and continuance.”³³

B. Hyundai and Kia Deviated from the Industry Standard by Electing Not to Include Immobilizers in the Susceptible Vehicles

62. Studies by the Highway Loss Data Institute (“HLDI”) showed “that vehicle theft losses decreased significantly after factory-installed passive immobilizing antitheft devices were introduced.”³⁴ Specifically, HLDI studies between 1996 and 2013 all showed decreases in theft losses for vehicles with engine immobilizers studied in those years, including General Motors, BMW, Ford, and Nissan.³⁵ A 2013 HLDI study “found that thieves were sometimes targeting the older model years of a vehicle series without immobilizers, such as the Honda Civic and Honda Accord.”³⁶

63. Despite decades of research and findings that immobilizers significantly reduced vehicle theft and the consequential public safety risks, “only 26 percent of Hyundai and Kia” 2015 vehicle models had “passive immobilizers as standard equipment, compared with 96 percent of other manufacturers.”³⁷

64. The low percentage of Hyundai and Kia vehicles with immobilizers is especially concerning given that, during this same time period, Hyundai and Kia were installing immobilizers in their models for sale in the European and Canadian markets.³⁸

³⁴ *Hyundai and Kia theft losses*, 38 HLDI Bull. 28, 1 (Dec. 2021), https://www.iihs.org/media/0e14ba17-a3c2-4375-8e66-081df9101ed2/opm7QA/HLDI%20Research/Bulletins/hldi_bulletin_38-28.pdf.

³⁵ *Id.* at 2.

³⁶ *Id.*

³⁷ *Id.* at 5.

³⁸ Hyundai first began exporting its cars to parts of Europe, the United Kingdom, and Canada between 1978 and 1984. *See Over 50 years of progress: the history of*

65. Nor are Defendants unfamiliar with the benefits of installing immobilizers in the American market. A NHTSA standard separate from FMVSS 114 requires automobile manufacturers to label parts to reduce the demand for stolen cars and chop shops (where stolen cars are disassembled so that their valuable parts can be sold).³⁹ Manufacturers can apply for exemptions from this labeling requirement based on the inclusion of anti-theft technology, because vehicles with anti-theft technology are much harder to steal in the first place and thus much less likely to be “chopped” for parts. In March of 2007, Hyundai requested an exemption from the labeling requirement for its 2008 Hyundai Azera line based on its inclusion of an immobilizer in that model. Thus, Hyundai recognized the efficacy of immobilizers in reducing vehicle theft.⁴⁰

66. Yet, despite knowing the unquestionable benefit of engine immobilizers, Hyundai and Kia offered immobilizers only in a few of their more expensive models, like the Azera, until the last year or so. Their decisions have

Hyundai, Hyundai Newsroom (Apr. 6, 2019), <https://www.hyundai.news/eu/articles/press-releases/over-50-years-of-progress-the-history-of-hyundai.html>. Similarly, Kia vehicles were introduced into European and Canadian markets in the 1990s.

³⁹ Requirements for passenger motor vehicles, 49 C.F.R. § 541.5 (June 1, 2011).

⁴⁰ Petition for Exemption From the Vehicle Theft Prevention Standard; Hyundai-Kia America Technical Center, Inc., 72 Fed. Reg. 39,661 (July 19, 2007), <https://www.govinfo.gov/content/pkg/FR-2007-07-19/pdf/FR-2007-07-19.pdf>; *see also* Petition for Exemption From the Vehicle Theft Prevention Standard; Hyundai-Kia America Technical Center, Inc., 75 Fed. Reg. 1,447 (Jan. 11, 2010), <https://www.govinfo.gov/content/pkg/FR-2010-01-11/pdf/2010-236.pdf> (NHTSA notice granting an identical exemption for the Kia Amanti vehicle line beginning in model year 2009 based on Defendant Kia’s representation that the immobilizer installation for that specific model should substantially reduce theft rates).

1 compounded the harms to low-income communities.⁴¹ Consumers without
 2 resources to afford these higher end models are more likely to live in areas with
 3 higher crime rates and are likely less able to pay for alternative transportation or for
 4 the cost of repairing a recovered, but damaged, vehicle after a theft.

5 67. In September 2022, HLDI found that Hyundais and Kias are stolen at
 6 nearly twice the rate of other vehicles in the automobile industry. Specifically,
 7 “Hyundais and Kias without immobilizers had a vehicle theft claim rate of 2.18 per
 8 1,000 insured vehicle years” while the remainder of the industry, combined, had a
 9 theft claim rate of 1.21.⁴²

10 68. Defendants’ decision not to install the simple and highly effective
 11 immobilizer or other reasonable anti-theft measure in the Susceptible Vehicles
 12 between 2011 and 2022, in contrast to the vast majority of car manufacturers that
 13 did choose to install immobilizers in nearly all of their vehicles, has, foreseeably,
 14 led to the epidemic plaguing Plaintiff.

15 **C. The Lack of Industry Standard Anti-Theft Devices in Most**
 16 **Hyundai and Kia Vehicles Has Led to a Wave of Thefts**

17 69. Kia and Hyundai chose to flout the industry standard and sell their
 18 vehicles without any reasonable anti-theft measures, which made those vehicles
 19

20 ⁴¹ Tom Krisher, *Thieves key on hack that leaves Hyundai, Kia cars vulnerable*, AP
 21 News (Sept. 21, 2022, 10:21 PM), <https://apnews.com/article/social-media-milwaukee-theft-eed3be407c1b7cb725ae607b8d86bcaf> (noting that “[m]any of
 22 the vulnerable Hyundais and Kias are often bought by lower-income people”
 23 because, as stated by HLDI Senior VP Matt Moore, those cars “are relatively
 inexpensive vehicles when purchased new”).

⁴² *Id.* (“An insured vehicle year is equal to one vehicle insured for one year.”).

1 more susceptible to theft. As would-be car thieves learned of Defendants' decisions,
 2 the incidence of theft for Susceptible Vehicles increased, relative to other models,
 3 from 2015 to 2020.⁴³

4 70. However, this progression became an explosion in late 2020, when a
 5 group of teenagers began posting "how-to" videos detailing how simple it was to
 6 steal Susceptible Vehicles.⁴⁴ That group, the "Kia Boyz," became notorious for
 7 posting videos of youth engaging in reckless driving after stealing Kias and
 8 Hyundais.⁴⁵ As the videos detailed, a thief need only break a window, remove the
 9 plastic cowl under the steering column, and use a USB connector (such as the
 10 ubiquitous mobile phone charging cable) to turn the ignition switch and start these

[https://www.cnbc.com/2022/09/08/tiktok-challenge-spurs-rise-in-thefts-of-kia-](https://www.cnbc.com/2022/09/08/tiktok-challenge-spurs-rise-in-thefts-of-kia-hyundai-cars.html)
[hyundai-cars.html](https://www.cnbc.com/2022/09/08/tiktok-challenge-spurs-rise-in-thefts-of-kia-hyundai-cars.html).

1 unsecure cars. In many instances, thieves are able to break into the Susceptible
2 Vehicles and drive away in under one minute.

3 71. What followed the trending documentation of the unsecure Susceptible
4 Vehicles was all too predictable: thefts of Kias and Hyundais skyrocketed.⁴⁶ In the
5 first half of 2021, the number of stolen Kias and Hyundais in Milwaukee increased
6 by more than thirty and fifteen times, respectively, when compared to the same
7 period in 2020.⁴⁷ This dramatic increase was unique to Kias and Hyundais, which
8 represented 67% of all cars stolen in that period, compared to only 6% of stolen
9 cars in 2019.⁴⁸ This trend then spread nationwide.

10 **D. Car Thefts Imperil Public Safety**

11 72. Car thefts directly imperil public safety. By creating, facilitating,
12 and/or otherwise contributing to a rash of car thefts, Defendants are responsible for
13 a substantial risk to the public safety.

<https://www.thetruthaboutcars.com/cars/kia/summer-of-theft-creating-bad-publicity-for-hyundai-kia-44496971>.

1 73. NHTSA promulgated FMVSS 114 to reduce the instances of car theft,
2 because “stolen cars constitute a major hazard to life and limb on the highways.”⁴⁹
3 NHTSA concluded that the “evidence shows that cars operated by unauthorized
4 persons are far more likely to cause unreasonable risk of accident, personal injury,
5 and death than those which are driven by authorized individuals.”⁵⁰ The NHTSA
6 Administrator concluded that “a reduction in the incidence of auto theft would make
7 a substantial contribution to motor vehicle safety,” by reducing both injuries and
8 deaths to would-be car thieves, and by “protect[ing] the many innocent members of
9 the public who are killed and injured by stolen cars each year.”⁵¹

10 74. The reverse is true as well. An *increase* in the incidence of automobile
11 theft results in a substantial decrease in public safety. Defendants’ decision not to
12 equip their vehicles with reasonable anti-theft measures, such as an immobilizer,
13 has led to a clear rise in automobile thefts and the concomitant threats to public
14 safety. Stolen cars are often driven recklessly—particularly in this case, where cars
15 are stolen for joyriding or use in the commission of other crimes, rather than for
16 parts or resale—which poses a risk to both the operators of the stolen vehicle and
17 any lawful drivers or pedestrians who are unfortunate enough to cross their paths.

18 75. By creating a rash of car thefts, Defendants are responsible for a
19 substantial risk to public safety.
20

21 ⁴⁹ See Motor Vehicle Safety Standard No. 114; Theft Protection; Passenger Cars,
22 33 Fed. Reg. 6,471 (Apr. 27, 1968), <https://www.govinfo.gov/content/pkg/FR-1968-04-27/pdf/FR-1968-04-27.pdf#page=1>.

23 ⁵⁰ *Id.*

⁵¹ *Id.*

1 76. Reckless driving impacts the comfortable enjoyment of life, health,
2 and safety of others. Distinct from many instances of car theft, where the object is
3 converting the stolen vehicle (either whole or in parts), the recent wave of Hyundai
4 and Kia thefts often involves teenagers joyriding, posting videos of themselves
5 driving recklessly, and then abandoning the stolen vehicles—often after
6 collisions—at all hours of the day and night.

7 77. Social media platforms are rife with examples of this dangerous
8 conduct. Videos posted on these platforms highlight the very real dangers of this
9 phenomenon, including youth joyriding through school zones or through crowds of
10 bystanders, and drivers hitting other cars and then running from the scene.⁵² The
11 fact that many of the perpetrators are juveniles and therefore inexperienced
12 drivers—in many cases, too young to have a driver’s license or permit—adds to the
13 danger.

14 78. Police officers responding to vehicle thefts and other crimes stemming
15 from those same thefts also face serious safety threats. In Cleveland, officers have
16

⁵⁷ *Id.*

1 him.⁵⁸ Police found nine bullet casings in the street and bullet holes in the front
 2 window of a nearby home and in a car parked on the street.⁵⁹ About one hour later,
 3 the same Hyundai, which had been reported stolen days earlier, was involved in a
 4 drive-by shooting.⁶⁰

5 80. This risk was also tragically demonstrated in Columbus, Ohio, when a
 6 4-year-old was killed in a hit-and-run involving a stolen Kia.⁶¹

7 81. Car thefts and reckless driving also create a substantial risk of physical
 8 harm to pedestrian bystanders. On February 8, 2023, a stolen Hyundai involved in
 9 a high-speed chase in Baltimore crashed into another car and a 54-year-old
 10 pedestrian.⁶² Both cars careened into a nearby building, which collapsed on top of
 11 the vehicles and the pedestrian.⁶³ The pedestrian was pronounced dead at the scene,
 12 and five occupants of the two cars were injured.⁶⁴

[trends/](https://counciloncj.org/mid-year-2023-crime-trends/).

1 recall to install engine immobilizers in the Susceptible Vehicles, initially only
 2 suggesting that owners of Susceptible Vehicles use wheel locks and, for some
 3 government entities, offering wheel locks for them to distribute.⁶⁹ Unfortunately,
 4 the wheel locks are not entirely effective; Susceptible Vehicles with wheel locks in
 5 use have still been stolen and, in some instances, used in connection with other
 6 crimes, including shootings.⁷⁰ In addition, government entities are not set up to
 7 distribute automotive parts to residents.

8 88. More recently, Hyundai and Kia have begun rolling out a “software
 9 update” rather than installing immobilizers.⁷¹ As highlighted in the multistate letter
 10 sent on behalf of 18 Attorneys General, Hyundai acknowledged that some of the

⁷¹ Hyundai and Kia Launch Service Campaign to Prevent Theft of Millions of Vehicles Targeted by Social Media Challenge, NHTSA (Feb. 14, 2023),
<https://www.nhtsa.gov/press-releases/hyundai-kia-campaign-prevent-vehicle-theft>.

1 affected vehicles cannot be updated, and Kia “confirmed that some unspecified
2 number of affected vehicles cannot receive the updates.”⁷²

3 89. As acknowledged in the motion for preliminary approval of the class
4 action settlement in the instant litigation, only 6.9 million of the approximately 9
5 *million* Susceptible Vehicles are even eligible for the update.⁷³

6 90. In the three months immediately following Kia’s and Hyundai’s
7 release of the software update, data gathered from the Associated Press showed
8 “that the number of Hyundai and Kia thefts is still growing[.]”⁷⁴ The software
9 update has not stopped the nuisance that the Susceptible Vehicles created and the
10 expenses that Plaintiff has incurred and continues to incur.

11 91. The update’s efficacy has not been proven in the real world. There
12 have been numerous reports of Kia and Hyundai vehicles being stolen after
13 receiving the software update, and Kia and Hyundai have identified scenarios where

18 ⁷³ Consumer Class Pls.’ Notice Mot. & Renewed Mot. Prelim. Approval Class
19 Action Settlement at 12, *In Re: Kia Hyundai Vehicle Theft Marketing, Sales
20 Practices, and Products Liability Litigation*, 8:22-ml-03052-JVS-KES (C.D. Cal.
21 Sept. 27, 2023), Dkt. No. 228; *see also* Carly Schaffner, *Kia, Hyundai anti-theft
22 software fixes a work in progress*, Auto. News (June 2, 2023, 8:00 AM),
[https://www.autonews.com/regulation-safety/kia-hyundai-antitheft-software-fix-
needs-fixes](https://www.autonews.com/regulation-safety/kia-hyundai-antitheft-software-fix-needs-fixes) [<https://perma.cc/HGH7-ZHZF>] (noting that Defendants estimate
23 “there are 9 million affected vehicles between them on the road”).

⁷⁴ *See* Tom Krisher, *Hyundai and Kia thefts keep rising despite security fix*, AP
News (May 9, 2023, 7:40 AM), [https://apnews.com/article/hyundai-kia-tiktok-
theft-stolen-8e0a353d24be0e7bce36e34c5e4dac51](https://apnews.com/article/hyundai-kia-tiktok-theft-stolen-8e0a353d24be0e7bce36e34c5e4dac51).

1 the software logic fails.⁷⁵ For vehicles not covered by the update, Defendants are
 2 offering nothing more than steering wheel locks or rebates for already purchased
 3 wheel locks.⁷⁶ As noted by multiple Attorneys General, steering wheel locks “still
 4 would not correct the underlying safety flaw . . . and . . . would impermissibly shift
 5 the responsibility for fixing this problem from the company to the individual vehicle
 6 owners.”⁷⁷

7 92. In addition, upon information and belief, the software update can
 8 significantly inconvenience the drivers of the Susceptible Vehicles, making them
 9 less likely to seek it out. Rather than install an actual immobilizer, the software
 10 update doubles the length of the vehicles’ theft alarm sound and adds a new logic
 11 check to the vehicles’ onboard computers that is intended to prevent the Engine
 12 Control Unit from allowing the engine to start and run if the key fob is not used to
 13 unlock the doors. This update will interfere with the usability of the Susceptible
 14 Vehicles in many everyday situations.

15 93. As noted by the Attorneys General in their letter dated April 20, 2023,
 16 there are at least two other significant issues with the software update. First, “not

17
 18 ⁷⁵ Carly Shaffner, *Kia, Hyundai anti-theft software fixes a work in progress*, Auto.
 19 News (June 2, 2023, 8:00 AM), [https://www.autonews.com/regulation-safety/kia-](https://www.autonews.com/regulation-safety/kia-hyundai-antitheft-software-fix-needs-fixes)
 20 [hyundai-antitheft-software-fix-needs-fixes](https://www.autonews.com/regulation-safety/kia-hyundai-antitheft-software-fix-needs-fixes) [<https://perma.cc/HGH7-ZHZF>]
 21 (discussing a February 2023 service bulletin issued from Kia to its dealers
 22 regarding a software compatibility issue for Kia vehicles equipped with remote
 23 start accessories; another bulletin issued from Kia in late-May of 2023
 acknowledged that “the problem has not been remedied”).

⁷⁶ See Zac Palmer, *Hyundai launches software update to fix some of 4 million vehicles at risk of theft*, Yahoo! (Feb. 14, 2023),
<https://autos.yahoo.com/hyundai-launches-software-fix-4-155800221.html>.

⁷⁷ Letter from Attorneys General to NHTSA at 6.

1 all eligible vehicles can receive the updates immediately”—approximately two
 2 million vehicles with the “starting system flaw” are still awaiting eligibility for the
 3 update.⁷⁸ Meanwhile, these vehicles “will remain on the road, vulnerable to theft
 4 and posing a threat to public safety.”⁷⁹ Second, Defendants’ “voluntary service
 5 campaign” does not prompt certain “regulatory requirements and oversight and
 6 instead places additional burdens on individual vehicle owners.”⁸⁰

7 94. Owners of the Susceptible Vehicles have already experienced issues
 8 where the software update—which requires the car to be unlocked using the fob
 9 before starting, failing which the alarm will sound—conflicts with after-market
 10 remote start systems that they had installed, rendering the vehicles functionally
 11 inoperable. As one owner recently posted: “I have the update. I also have an
 12 aftermarket remote start. The remote start will set off my car alarm. You can turn
 13 the alarm off, but it will beep periodically and the headlights flash until you turn the
 14 vehicle off.”⁸¹

16 ⁷⁸ *Id.* at 6–7. Additionally, media outlets report that customers are “having a
 17 difficult time getting through” to customer service representatives for Hyundai
 18 and Kia to inquire about the software update and their vehicle’s eligibility. *See*

⁸¹ Reddit (Feb. 15, 2023, 7:05 AM),
 [[https://web.archive.org/web/20230311080407/https://www.reddit.com/r/kia/com-](https://web.archive.org/web/20230311080407/https://www.reddit.com/r/kia/comments/11303m4/hyundai_and_kia_release_software_update_to/?sort=new)
 23 [ments/11303m4/hyundai_and_kia_release_software_update_to/?sort=new](https://web.archive.org/web/20230311080407/https://www.reddit.com/r/kia/comments/11303m4/hyundai_and_kia_release_software_update_to/?sort=new)].

1 95. There can be no doubt that communities nationwide are suffering
2 harmful downstream consequences because of business decisions Hyundai and Kia
3 made not to include reasonable anti-theft measures, such as immobilizer
4 technology, in certain vehicles. And as local governments have experienced
5 nationwide when vaping products and drugs have unleashed widespread harms
6 affecting public health and safety, local communities are left paying the price for
7 businesses' decisions to boost their profits.

8 96. Prior to this software update, Hyundai turned this crisis of its own
9 making into a source of revenue, selling security kits for \$170, plus the cost of
10 installation.⁸² Defendants could have, and should have, initially included a fob-
11 integrated engine immobilizer, consistent with the industry standard. Even after the
12 cars were sold, Defendants could have implemented a mandatory recall. Instead,
13 Hyundai chose to make money from a crime wave it caused.

14 97. Because Hyundai and Kia have not implemented a mandatory recall
15 for the installation of immobilizers, millions of the Susceptible Vehicles remain on
16 the road. A recent report from CARFAX found that 4.9 million Hyundais and Kias
17 remain susceptible to theft.⁸³

⁸³ Patrick Olsen, *Nearly 5 Million Hyundai and Kia Models Need Anti-Theft*
Repairs, CARFAX Blog (July 19, 2023), <https://www.carfax.com/blog/kia-hyundai-theft-repairs>.

98. By failing to equip their vehicles with reasonable anti-theft measures, such as the industry-standard engine immobilizer, Defendants have elected profits over safety and created a public nuisance that continues to this day.

VI. IMPACTS ON PLAINTIFF

99. Fort Wayne has experienced skyrocketing rates of Hyundai and Kia vehicle thefts, starting in 2022. That year, Fort Wayne recorded approximately 105 thefts of Hyundai and Kia vehicles—a 289% increase from the 27 Hyundai and Kia thefts recorded in 2021. From January to September 2023, Fort Wayne recorded 154 thefts of Kia and Hyundai vehicles, already 47% more thefts than all of 2022.

100. The rise in Hyundai and Kia thefts in Fort Wayne noticeably increased in the summer of 2022 before reaching unprecedented heights in recent months.

101. In 2020 and 2021, Hyundais and Kias accounted for approximately 5.3% and 4.5%, respectively, of all vehicle thefts in Fort Wayne. In 2022, Hyundai

1 and Kia vehicles accounted for 17% of all vehicle thefts. As of September 30, 2023,
2 Hyundais and Kias comprised approximately 30% of all motor vehicle thefts in Fort
3 Wayne.

4 102. In one week in August 2023, 20 of the 22 vehicles stolen were either a
5 Kia or a Hyundai and “it is happening throughout the city.”⁸⁴ As one resident told a
6 reporter, “[i]t has gotten to the point where people are afraid every day that they are
7 going to have their car stolen[.]”⁸⁵

8 103. The high rate of thefts has also led to increased threats to public safety.
9 For example, one resident’s stolen Kia was caught on camera “speeding – and
10 almost literally flying – through an intersection” after it had already been stolen
11 once before.⁸⁶ Three juveniles speeding away from officers in a different stolen Kia
12 slammed into an apartment building.⁸⁷ Another stolen Kia was crashed into a fire

1 hydrant while fleeing police.⁸⁸ In one neighborhood alone, “several cars have not
 2 only been stolen but crashed and dumped . . . including one car that crashed into [a
 3 resident’s] garden.”⁸⁹ Juveniles driving yet another stolen Kia led Fort Wayne
 4 officers on a chase through crowded city streets and neighborhoods, at speeds up to
 5 75 mph, and through oncoming traffic and yards before crashing at an intersection.⁹⁰

6 104. Captain Sofia Rosales-Scatena of the Fort Wayne Police Department
 7 “says, most of the time, teens are stealing the Kia and Hyundai cars, taking them on
 8 a joy ride and then abandoning them.”⁹¹ The problem, as Captain Rosales-Scatena
 9 explained, is that “[t]he joyriding becomes a criminal issue. It’s a felony to steal a
 10 car. It’s a felony to evade police in a vehicle. And the problem is innocent people
 11 are getting hurt.”⁹²

1 affects an entire neighborhood or community and unreasonably interferes with a
2 right common to the public.

3 109. Indiana Code Annotated § 32-30-6-7(c) provides that “[a] county, city,
4 or town that brings a successful action under this section to abate or enjoin a
5 nuisance is entitled to recover reasonable attorney’s fees incurred in bringing the
6 action.”

7 110. Defendants created and maintained a public nuisance that proximately
8 caused injury to Plaintiff.

9 111. Defendants, through their designing, manufacturing, distribution, and
10 sale of automobiles that are dangerously susceptible to theft, have created,
11 contributed to, and maintained a public nuisance that substantially interferes with
12 rights common to the general public, is offensive to community moral standards,
13 and unlawfully obstructs the public’s free use of public property.

14 112. Defendants’ conduct has interfered, and continues to interfere, with the
15 public’s use of public streets and sidewalks in Fort Wayne and has endangered the
16 safety, health, and comfort of the general public in Fort Wayne.

17 113. The public nuisance created and maintained by Defendants has
18 resulted, and continues to result, in significant damage and annoyance to Plaintiff.

19 114. In addition, Defendants’ conduct has undermined law enforcement
20 efforts to deter vehicle theft and has otherwise diverted scarce law enforcement
21 resources.

22 115. At all relevant times, Defendants have been the manufacturers,
23 marketers, and/or distributors of the Susceptible Vehicles being stolen at record

1 rates and that are, at times, being used in the commission of violent crimes in the
2 State of Indiana and in Fort Wayne.

3 116. At all times relevant to this litigation, Defendants knew or had reason
4 to know of the hazards and dangers of forgoing installation of reasonable anti-theft
5 measures, such as engine immobilizers, in the Susceptible Vehicles and specifically
6 the increased risk of vehicle theft and public harm. Defendants knew or had reason
7 to know that the installation of engine immobilizers successfully decreased the rate
8 of car theft by as much as 40%. Defendants also knew or had reason to know that
9 the installation of immobilizers in their own vehicles has considerable deterrent
10 effects on the rate of car theft.

11 117. Defendants know that their conduct has caused an increase in vehicle
12 theft that has had and will continue to have a detrimental effect on the safety,
13 welfare, peace, comfort, and convenience of the general public in Fort Wayne.

14 118. Defendants, through their business practices, have contributed and
15 continue to contribute to a significant increase in vehicle theft, reckless driving, and
16 the use of their vehicles in the commission of other crimes in Fort Wayne, thus
17 endangering the safety and health of considerable numbers of Fort Wayne residents,
18 depriving Fort Wayne residents of the peaceful use of the public streets and
19 sidewalks, undermining law enforcement efforts, increasing law enforcement costs,
20 diverting law enforcement resources, and interfering with commerce, travel, and the
21 quality of daily life in Fort Wayne. The public nuisance caused by Defendants'
22 conduct is ongoing.

1 119. Accordingly, each Defendant has and continues to substantially
2 interfere with rights common to all and causes, contributes to, and/or maintains a
3 public nuisance in Fort Wayne.

4 120. As a result of Defendants' conduct, Fort Wayne has suffered and will
5 continue to suffer economic damages, including significant expenditures for police
6 and other services, injuries to police officers and damage to City property. Fort
7 Wayne will continue to incur economic damages until the nuisance is abated. These
8 damages are particular to Fort Wayne and are different in kind to the harms suffered
9 by residents at large.

10 121. Defendants' misconduct alleged in this case has created an ongoing
11 and persistent public nuisance and does not concern a discrete event or discrete
12 emergency of the sort a political subdivision would reasonably expect to occur and
13 is not part of the normal and expected costs of a local government's existence. Fort
14 Wayne alleges wrongful acts which are neither discrete nor of the sort a local
15 government can reasonably expect to occur.

16 122. Fort Wayne has suffered, and will continue to suffer, unique harms as
17 described above, which are different in kind and degree to the harms suffered by
18 Fort Wayne residents at large.

19 123. Fort Wayne has incurred, and will continue to incur, expenditures over
20 and above its ordinary public services due to the public nuisance created by
21 Defendants' actions.
22
23

1 124. Fort Wayne requests an order providing for abatement of the public
2 nuisance that Defendants have created or assisted in the creation of, compensation
3 for the economic injuries suffered as a result of the nuisance, and injunctive relief.

4 **COUNT TWO — NEGLIGENCE**

5 125. Fort Wayne incorporates each preceding paragraph as though set
6 forth fully herein.

7 126. At all times relevant to this litigation, Defendants had a duty to act as
8 a reasonably careful person would act under the circumstances in the design,
9 research, manufacture, and distribution of Defendants' Susceptible Vehicles,
10 including the duty to take all reasonable steps necessary to prevent the
11 manufacture and/or sale of vehicles that are so easy to steal.

12 127. Defendants owed and continue to owe the City a duty not to expose
13 the City to an unreasonable risk of harm.

14 128. At all times relevant to this litigation, Defendants knew or, in the
15 exercise of reasonable care, should have known of the hazards and dangers of
16 failing to equip the Susceptible Vehicles with reasonable anti-theft measures, such
17 as engine immobilizers, and specifically, the increased risk of vehicle theft and
18 public harm.

19 129. Accordingly, at all times relevant to this litigation, Defendants knew
20 or, in the exercise of reasonable care, should have known that the omission of
21 such reasonable anti-theft measures in the Susceptible Vehicles could cause the
22 City's injuries and thus create a dangerous and unreasonable risk of injury to the
23

1 City. Defendants were therefore in the best position to protect the City against the
2 foreseeable rise in the theft of Hyundai and Kia vehicles.

3 130. At all times relevant to this litigation, Defendants knew or had reason
4 to know that the omission of such reasonable anti-theft measures, such as engine
5 immobilizers, in the Susceptible Vehicles could cause the City's injuries.

6 131. Defendants, by action and inaction, breached their duty and failed to
7 exercise reasonable care, and failed to act as a reasonably prudent person and/or
8 company would act under the same circumstances in the design, research,
9 development, manufacture, testing, and distribution of the Susceptible Vehicles, in
10 that Defendants manufactured and produced vehicles that fell below the standards
11 for reasonable anti-theft measures.

12 132. Defendants are in control of the design, research, manufacture,
13 testing, and distribution of the vehicles they distributed to authorized dealerships
14 in the City.

15 133. Defendants knew and/or should have known that it was foreseeable
16 that the City would suffer injuries as a result of Defendants' failure to exercise
17 reasonable care in the manufacturing and sale of Defendants' vehicles,
18 particularly given Defendants' recognition as early as 2007 that engine
19 immobilizers were an effective deterrent in preventing vehicle theft.

20 134. Defendants were negligent in failing to monitor and guard against
21 third-party misconduct and enabled such misconduct.

22 135. Defendants acted unreasonably in light of the foreseeable result of
23 their conduct, and Defendants' negligence helped to and did produce, and was a

1 factual and proximate cause, of the injuries, harm, and economic losses that the
2 City suffered, and will continue to suffer.

3 136. Defendants' acts and omissions imposed an unreasonable risk of
4 harm to others separately and/or combined with the negligent and/or criminal acts
5 of third parties.

6 137. The City's injuries, harms, and economic losses would not have
7 occurred absent Defendants' negligent conduct as described herein.

8 138. As a proximate result of Defendants' wrongful acts and omissions,
9 the City has been injured and suffered economic damages and will continue to
10 incur expenses in the future, as described herein, including but not limited to
11 expending, diverting, and increasing resources to retrieve stolen cars, provide
12 emergency medical services, and/or address property damage on public roads in
13 the City's community.

14 139. Defendants engaged in conduct, as described above, that constituted
15 reckless disregard for the safety and health of the City's residents, being fully
16 aware of the probable dangerous consequences of the conduct and deliberately
17 failing to avoid those consequences.

18 140. Defendants' conduct constituting reckless and conscious disregard of
19 public safety was committed and/or authorized by one or more officers, directors,
20 or managing agents of Defendants, who acted on behalf of Defendants.

21 Additionally, or in the alternative, one or more officers, directors or managing
22 agents of Defendants knew of the conduct constituting reckless disregard for
23 public safety and adopted or approved that conduct after it occurred.

1 148. Entering an Order requiring Defendants to abate the public nuisance
2 described herein and to deter and/or prevent the resumption of such nuisance;

3 149. Enjoining Defendants from engaging in further actions causing or
4 contributing to the public nuisance as described herein;

5 150. Awarding Plaintiff equitable relief to fund automobile theft
6 prevention;

7 151. Awarding Plaintiff actual and compensatory damages;

8 152. Awarding Plaintiff punitive damages;

9 153. Awarding Plaintiff reasonable attorneys' fees and costs of suit;

10 154. Awarding pre-judgment and post-judgment interest; and

11 155. Awarding Plaintiff with such other and further relief as the Court
12 deems just and proper under the circumstances.

13 **IX. DEMAND FOR JURY TRIAL**

14 156. Plaintiff hereby demands a trial by jury.

15
16 RESPECTFULLY SUBMITTED this 24TH DAY OF OCTOBER, 2023.

17 CITY OF FORT WAYNE,
