As someone who overcame dyslexia, I want to ensure that all children have the best education possible regardless of their learning needs. They should also be safe. My opponent cast the tie-breaking vote to remove mandatory reporting requirements in schools for sexual battery, stalking and violent

threats. This is inexcusable and set the stage for what we have seen unfold in Loudoun County with this year's sexual assault coverups by the school board. I will always be a voice for victims. I also support fully funding our police and ensuring they receive the best training possible to keep our communities safe. We need a fresh, common sense approach to politics that focuses on people. This is why I am running.

Virginia Candidates

HOUSE OF DELEGATES - 33RD DISTRICT

Paul Siker - D

Name: Paul Siker
Age: 59
Running for: House of Delegates, 33rd District Seat
Political affiliation: Democrat
Political/professional experience: Small Business Owner/Entrepreneur CEO – Advanced Recruiting Trends, LLC – Talent Acquisition and Staffing Consulting firm. Representative clients include Schneider Trucking, Houston Methodist Healthcare, Waste Management, TripAdvisor, Dollar General. CEO – The Artisan Group, Inc. – Executive Search firm. Representative clients include Cystic Fibrosis Foundation, Children’s Hospital of Philadelphia, United Educators, Discovery Channel. Education: B.A. Political

Science, Wittenberg University, Springfield, OH
Campaign platform: I consider myself to be a pragmatic centrist — someone who believes good governance is grounded in good judgement. Like many in District 33, I am a fiscal conservative and a social moderate. I have over 35 years of experience owning and operating small businesses, with a proven track record of delivering results to demanding organizations on complex business issues. I attribute my professional success to being a thoughtful listener and finding solutions that assure all parties feel that they have “skin in the game.” I intend to bring these skills to the General Assembly and deliver results for all residents of the 33rd. Some of the initiatives I would like to address are transportation infrastructure improvements, creating workforce development opportunities to benefit both businesses and job seekers, make healthcare services more accessible, assure our schools remain world-class, and provide additional funding for law enforcement. In closing, I hope to usher in a new era of bipartisanship, one that focuses on delivering results and eliminates fringe politics and extremism.

Dave LaRock - R

Name: Dave LaRock
Age: 65
Running for: Virginia House of Delegates 33rd District
Political affiliation: Republican
Political/professional experience: 40-year small business owner, hs served 8 years in the House of Delegates
Education: Raising 7 children, various business management courses, 40 years as a small business owner
Campaign platform: My primary goal as Delegate is serving the people who elect me to act on their behalf by finding solutions to challenges, big and small, while protecting their God-given, constitutionally protected individual rights. That process begins by listening to input and observing needs. As ideas develop, next comes working to formulate and win support for fair, durable, and cost-effective solutions. As the pandemic brought education into homes, many parents discovered that schools were increasingly off

mission; substituting cultural indoctrination for academics. This completely violates the trust parents have placed in schools, as parental values are written over instead of being respected and reinforced. I will support efforts to do a course correction, shifting back to education fundamentals which protect parental rights, provides accurate and unbiased teaching, and prioritizes academic excellence. Public safety is a fundamental function of government. Criminals and victims both have rights, but the recent trend to vilify police and treat criminals as victims must cease. I will prioritize the repeal of various laws which compromise public safety and the ability of police to keep us safe, as well as for citizens to defend themselves against criminals. Government responses to COVID-19 placed enormous stress on businesses and families. Government should be a trusted source of information when it is involved in health issues. I will work to block intrusion by government into individual medical decisions and treatment options. Likewise, I will seek to better define emergency powers of the governor so that decisions are made by legislators and not appointed bureaucrats. Expanding high speed and affordable internet to rural homes is now in the later stages of planning and funding. I will continue working to ensure that becomes reality soon. Likewise, transportation improvements, some long overdue, are at the top of my priority list.

Frederick County

BOARD OF SUPERVISORS - RED BUD DISTRICT

Blaine P. Dunn

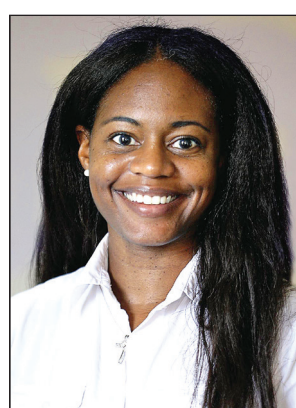

Name: Blaine P. Dunn
Age: 72
Running for: Board of Supervisors — Red Bud District
Political Affiliation: Republican Party
Political/Professional Experience: Technical rep for Union Carbide; History teacher in Amherst, MA; Legislative Director / Assistant for Congressmen Staton, Marks, Whalen; Legislative Director/Assistant for EPA and REA; Financial Planner — Citigroup subsidiary; Financial Planner — Dunn Financial Advisors, LLC; Supervisor Frederick County, VA — Red Bud Magisterial District
Education: BS Clarkson College of Technology —

Industrial Distribution; MA University of Massachusetts — Diplomatic History; CFP designation — College of Financial Planning
Campaign Platform: The most important issue facing Frederick County is population growth. That issue affects everything else including education, fire and rescue, the sheriff's department, roads, and zoning. The county population in the last 20 years has risen by more than 50% and future growth is projected to be between 30,000 — 40,000. How do we pay for that growth? I have offered a plan to address that growth by having the capital costs of development borne by those moving into the county. The details of that plan I have addressed in multiple Board meetings. Current residents would not have to subsidize that growth with increased real estate taxes. My opponent has offered no plan to address growth. Her record includes supporting more than 15% annual increases in the proposed school budget each year which does not include any money for county operations. I have supported educational needs which account for more than 62% of our

budget by supporting the renovations of James Wood and Indian Hollow and saved \$7 million on the building of the new Aylor school. In addition, I have asked for full transparency and accountability on the school budget. Unfortunately, the School Board and my opponent have refused to provide that information. We should address increase teacher personnel needs and salaries versus adding more administrative positions. During my tenure, I have:

- worked with EDA for Food Lion grocery store replacement,
- supported St. Paul's on-the-Hill affordable senior housing,
- lobbied the General Assembly to prohibit tractor trailer parking,
- advocated for lower taxes and reasonable spending,
- supported fire & rescue staff and resource needs,
- advocated for purchase of sheriff cars and school buses
- held Town Hall meetings,
- made Frederick Heights Park useable,
- kept the Greenwood recycle center open

work to provide increased frontline teacher support to help with the students and administrative-reporting workloads. Science, Technology, Engineering, and Math (STEM) — These classes teach students to understand, experiment, and be creative in the natural and manmade environment. As a society, we need students who excel in STEM to become future inventors and developers. I will work to have more STEM classes so we can develop student's talents in advance of college or the workforce. Career & Technical Education — Our economy has changed and brought with it many good-paying jobs that do not require a college degree, such as jobs in alternative energy production. I will work with industry leaders and the school administration to update the program offerings in Career and Technology Education programs to include new economy sectors so students who do not go to college will be well prepared for a rewarding career. I have volunteered to work with vulnerable populations including autistic children and disabled veterans with non-profits such as Surfers Healing and The Warrior

Campaign platform: I am running for this position to ensure children are receiving a proper education that focuses on a core curriculum rather than ideologies. I am focused on protecting children by ensuring they use the correct restrooms based upon biology, and to protect the children who may feel like they are transitioning I propose to let them use a single-person restroom. This will help ensure that all children are protected and not being targeted based upon their sexual orientation. I believe in letting parents have a voice in their child's education in all facets from schedules, IEPs, and masks. I will ensure transparency in the curriculum, policies, and budget. I want to deliver the taxpayers a clear budget where they can see how the funds are being spent. Irresponsible spending in our schools is driving our teachers away. We could do so much more for our education professionals on the same budget without the needless spending.

Campaign platform:
As a conservative school board member, I will fight left-wing mandates that are coming from the Virginia Department of Education. This battle will include:
Keeping Critical Race Theory out of Frederick County's textbooks and classroom curricula; Advocating for a return to the highly effective tiered levels of student support that existed prior to the Education Department mandates that began in 2018; Keeping anti-American revisions of American history, such as the 1619 Project, out of our textbooks and classroom curricula; Keeping biologically male students from competing against girls in athletics and from gaining access to girls' restrooms; Advocating for the removal of boys' urinals from girls' locker rooms, wherever they exist; Advocating for a policy that requires the reporting of all sexual assault crimes that happen on school grounds to law enforcement, although Governor Northam recently signed a law giving school principals and superintendents the discretion not to report such crimes; and Advocating for the continued funding of School Resource Officers at every public school in Frederick County.
In order to support the learning process for students and classroom teachers, I will advocate for:
1). The creation of a full-fledged apprenticeship program involving partnering with employers in Frederick County, to give those students who learn better in the workplace than in the classroom, an option they don't currently have;
2). Obtaining funding from the state government for specialized training for school counselors to more effectively respond to the epidemic of drug abuse and COVID-related depression that students are now experiencing.

Our schools need to change to catch up with innovation and the future world beyond the tech age. It is not just about learning the basics. Our students need to learn critical thinking and how to work in teams and create the best future they want to live and work in. How? We need to make decisions right now that: Engage our students in learning so they will want to be in the classroom; stay ahead with innovation; fund teachers and facilities; make decisions for our students that are not political or personal; understand the needs of students to ensure the curriculum followed by the student enables their success; find a way to work with all to achieve a common goal—the success of the student; and make curriculum relevant, honest and sound.
As a product of and with my experience as a teacher in Frederick County, along with my vast experience in administration, I will hit the ground running to help make our schools the best of the best for our students and their futures. I come with the a proven record of working consistently with the opposing side to ensure the worlds come together for the students.
