The dictionary says saluting is a "gesture of respect." so we salute veterans because of the work they did for our country. They fought in wars and they helped save people. We want them to make sure that they know we appreciate their work. We salute with our hands but also with our hearts. We put out American flags in our yard. We go to veterans day parades. We learn about the wars and what the veterans did for the United States of America. We have many gestures of respect because saluting our American veterans is very very important.
