**St. Jude Children's
Research Hospital**
Finding cures. Saving children.
ALSAC - DANNY THOMAS, FOUNDER

Facts at a Glance

St. Jude Children's Research Hospital® is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Our mission is clear: **Finding cures. Saving children.**®

St. Jude patient **Marina**,
eye cancer

Families never receive a bill from St. Jude for treatment, travel, housing or food—so they can focus on **helping their child live.**

Treatments invented at St. Jude have helped **push the overall childhood cancer survival rate from 20% to more than 80%** since it opened in 1962. And we won't stop until no child dies from cancer.

St. Jude shares the breakthroughs it makes, and every child saved at St. Jude means doctors and scientists worldwide can use that knowledge to **save thousands more children.**

St. Jude creates **more clinical trials for cancer than any other children's hospital** and turns laboratory discoveries into lifesaving treatments that benefit patients.

Because a majority of **St. Jude funding comes from generous donors**, St. Jude has the freedom to focus on **what matters most—saving kids regardless of their financial situation.**

St. Jude treats children from all **50 states and around the world.**
