<i>Cray-Cray for Clay</i>	Artists will learn and practice hand-building skills to create 3D works of art using air-dry clay and Sculpey polymer clay. Projects are taught in a way that allows for exploration and individuality so your child may create exactly what they desire. All work will be painted and sealed before being taken home.
<i>Paint, Print & Chalk</i>	Your favorite painting class is back in action! Students will complete a canvas painting, experiment with watercolor techniques, and explore printmaking. We will have a sidewalk chalk party to try out "chalk painting" as well!
<i>Jurassic Art</i>	We will use our love and fascination with dinosaurs to explore a variety of art media in fun and engaging ways. Feel free to wear your favorite dino gear or bring your favorite dinosaur toy to class as inspiration!
<i>Under the Sea</i>	Explore the vast oceans as we create ocean themed artwork in this awesome class, no scuba gear required. We will practice drawing different sea creatures and then move on to painting and sea inspired sculpture.
<i>Open Studio</i>	In this 4-week long studio experience, YOU will determine the structure of the class. We will start day one by conferencing as a group and making sketchbooks to store our ideas and discoveries. Each day you come to class, you will be welcomed by an assortment of art media to meet the needs of all artists. *Please note that this will be a class that focuses on exploration and process with less emphasis on a final product*.
<i>3D Extreme</i>	There's nothing flat about this exciting class! Artists will begin with paper sculptures and venture into creating with cardboard, plaster, wire, and more. See you there!

Tennis

All instructional classes will follow the USTA (United States Tennis Association) Recreational Tennis Curriculum. The USTA program includes performance objectives, skill drills, and fun games on the courts. Students need to bring their own tennis racquet. The USTA tennis curriculum is designed to bring kids to the game by utilizing smaller racquets, slower and lighter balls, shorter court dimensions, and modified scoring.

Red Ball	Red Ball tennis instruction is focused on developing the ABCs (agility, balance, and coordination), all while forming the skills necessary to serve, rally, and score. Participants will play fun games and learn how to make contact with the ball while improving hand-eye coordination and self-confidence.
Orange Ball	Players utilize control, spin, and positioning to their advantage while also being able to consistently rally and cooperate with a partner. Balance, transferring weight, and ground strokes are incorporated into this instructional program.
Green Ball	Skills incorporated into Green Ball instruction include playing games and sets, grip, body position, forehand stroke, backhand stroke, service and scoring. Players will learn how to hit with direction, develop volleying techniques, strategies for playing at the net, and improve coordination.
