SUN COUNTRY AIRLINES EXTENDS NONSTOP SERVICE FROM CHIPPEWA VALLEY REGIONAL AIRPORT

Nonstop service to Fort Myers, Florida will be offered seasonally beginning January 29, 2027

Eau Claire, Wisconsin: Chippewa Valley Regional Airport (EAU) is delighted to announce that Sun Country Airlines' newly released schedule extension includes nonstop seasonal service between Eau Claire and Southwest Florida International Airport (RSW) in Fort Myers, Florida. The return of this popular route gives travelers in the region a convenient nonstop connection to one of Florida's most sought-after destinations.

"The return of the Fort Myers flights reflects the strong partnership between the airport, Sun Country Airlines, our passengers, local businesses and regional supporters who continue to champion the value of accessible air travel," said Charity Zich, Airport Director at Chippewa Valley Regional Airport. "Their ongoing commitment plays a key role in helping us maintain and enhance air service opportunities for the entire Chippewa Valley."

The nonstop flights will operate seasonally, offering a convenient travel option for those planning a warm-weather getaway. Service is scheduled on Mondays and Fridays from January 29, 2027, through April 5, 2027. Tickets are available now, and travelers can book by visiting www.suncountry.com or by calling Sun Country Reservations at (651) 905-2737.

This popular seasonal service to Fort Myers complements Sun Country Airlines' seasonal flights to Las Vegas, which are currently on sale and scheduled to operate from September 4 through December 7, 2026. Together, these seasonal flights enhance the airport's existing service to Chicago O'Hare (ORD) on United Express, which provides convenient connections to destinations worldwide.

For more information on airlines and flights, travelers can visit www.chippewavalleyairport.com and select the Flight Information tab.
