Re: Old Second National Bank v. City of Sandwich
Case No. 19 ED 01
Our File No. 13827.000198

Dear Judge Krentz,

Enclosed please find a proposed Agreed Order continuing this matter for approximately 90 days for further status. Since we last met with the Court, the City Engineer has pulled together all engineering reports connected with the project over the years and I am sifting through same to get them to opposing counsel. Additionally, the City Engineer is obtaining quotes from third-party engineers for performance of a further engineering study on the property. Once those quotes are collected, I will need to go to counsel for authorization. Accordingly, we are hoping that the 90 day continuance reflected in the enclosed Order will allow us to come back with a more concrete report of where things stand.

Thank you in advance for your courtesies in this matter. By copy of this correspondence, counsel for all parties has been advised of this communication with the Court.

Very truly yours,

Tait J. Lundgren
