

JAM SESSION

AMERICAN PALE ALE

The evolution of American Pale Ale—still a session beer but it sacrifices nothing—clear hop flavor shines through without being too dominant, and there's a great malt flavor uncommon to the variety. The backbone of this beer is the balance of imported Maris Otter and Caramunich malts with the pine and citrus flavors of Centennial, Simcoe, and Citra hops.

5.1% ABV - 6.5 SRM - 31 IBU
