## **Mentoring and Supporting LGBTQ+ Students**

The LGBTQ+ community is truly a rainbow of identities. However, despite how bright that rainbow can shine at times, members of this community can still sometimes be referred to as an "invisible minority." This time together in dialogue will include a look into a few of the concerns that LGBTQ+ students face in today's society (especially at UNCG). A panel of current undergraduate, master's, and doctoral students will help us explore ways in which we can better support and mentor them through their higher education.
