# New Prostate Discovery Helps Men Avoid "Extreme Bathroom Planning"

*Men across the U.S. are praising a revolutionary prostate pill that's 1000% more absorbable.*

*Now the visionary MD who designed it is pulling out all the stops to keep up with surging demand...*

Among the all-too-familiar, occasional problems like sleepless nights, frequent urination, late-night wake ups, a bladder that's never quite empty, and constant, extreme planning for rest stops and bathroom breaks.

These are the common signs of inconvenient urinary issues. But men nationwide are now reporting they've found help these occasional problems thanks to a major breakthrough in nutrient technology.

**Prosta-Vive LS** is the new prostate pill sweeping the nation. Men say they feel they're now having strong, complete, effortless urine flow they enjoyed in their 20s and 30s.

The key to its success is a new nutrient technology that makes the key ingredient 1000% more absorbable, according to a study by endocrinologists at Washington University in St. Louis.

Nick Summers is the spokesman for Primal Force Inc., the firm in Royal Palm Beach, Fla. that makes **Prosta-Vive LS**. He reports demand is surging due to word-of-mouth and social-media.

"We knew **Prosta-Vive** really worked to 'support healthy, stronger urine flow,'" Summers stated. "But no one could have predicted the tens of thousands of men looking for a truly supportive prostate pill."

## NEW PROSTATE FORMULA DRAWS 5-STAR REVIEWS

It's not the first time Dr. Al Sears, the Florida-based MD who designed the breakthrough formula, has shaken up the status quo in men's health.

A nationally recognized men's health pioneer and the founder of the Sears Institute for Anti-Aging Medicine in Royal Palm Beach, Fla., Dr. Sears has been featured on ABC, CNN, and ESPN.

He's authored more than 500 books, reports, and scientific articles, many focusing on prostate issues that may affect virtually all men sooner or later.

"By age 60, I find about half of my male patients feel the need for prostate support," Dr. Sears explains. "By the time they reach age 80, it's over 90 percent."

**Prosta-Vive LS** has reportedly made a life-changing difference for these men. One appreciative thank-you letter came from Jim R, a patient.

"I had immediate results," Jim R. wrote in his thank-you note. "I slept through the night without going to the bathroom."

"Last night was the most amazing of all," he added. "I slept for 10 hours without going to the toilet."

Results like these explain the flood of phone calls the company's customer service department is handling from men who want to know how the new formula works...

## PROSTATE PILL BACKED BY CLINICAL RESULTS

**Prosta-Vive LS's** extraordinary success is being attributed to advanced innovations in nutrient technology.

Most prostate pills rely on either outdated saw palmetto ... or the prostate-soothing compound Beta-Sitosterol.

But Dr. Sears cites growing evidence that saw palmetto and Beta-Sitosterol work much better together than either does on its own.

In fact, a recent clinical trial involving 66 men taking a combination of saw palmetto and Beta-Sitosterol reported "significant" improvement across the board.

Among the results: Fewer of those occasional late-night wake ups, a stronger stream, less starting and stopping, and complete emptying of the bladder.

That's why **Prosta-Vive LS** includes both saw palmetto and Beta-Sitosterol, to ensure men get the extra prostate support they need. Frustrated men say it's giving them tremendous support.

But there's another key reason **Prosta-Vive LS** is helping men get back control in the bathroom.

## YOUR PROSTATE IS HUNGRY FOR HEALTHY FAT

The other key innovation in **Prosta-Vive LS** is its addition of healthy

omega-3 fatty acids.

"It turns out what's good for your heart is also good for your prostate," says Dr. Sears. "That's why I put heart-healthy omega-3s in a prostate pill."

Researchers have long known Beta-Sitosterol has a great potential to support healthy prostate function.

But Beta-Sitosterols are "hydro-phobic" -- they don't mix well with water. And that can make them much harder for the body to absorb.

That's where long-chain omega-3s come in. The latest research shows they boost Beta-Sitosterol absorption by 1000%.

Dr. Sears explains, "Most people only get trace amounts of Beta-Sitosterol because it can be hard to absorb. In this respect, the long-chain fatty acids in **Prosta-Vive LS** are a real game-changer. They supercharge the absorption."

This improved absorption is proving to be a revolutionary advance. **Prosta-Vive LS** is changing men's lives, quickly becoming the No. 1 support supplement for supporting men's prostate health nationwide.

Now, grateful men are calling almost every day to thank **Prosta-Vive LS** for supporting a renewed sense of empowerment over their own lives.

One patient, Ari L., wrote, "I used to get up on occasion at night to go to the bathroom. Now I only get up once... and I feel it has supported my prostate, keeping my PSA levels in the normal range."

Patients report they have more energy, sleep better, and no longer feel embarrassed by that occasional sudden need to use the restroom.

Thanks to **Prosta-Vive LS**, thousands of men feel more confident about their urinary health and are no longer being held hostage to pee problems and feel more confident about their urinary health.

They say they're getting great sleep and finally feel back in charge of their own lives.
