45-Day RISK FREE Trial

Stream audio directly to your hearing aids from devices like a TV, iPhone, Android or other personal devices.

Don't wait until it's too late Untreated hearing loss increases the risk of dementia by 50%.¹

FALL ALERTS

If you're an older adult – or care for someone who is – falling is likely high on your list of worries. The built-in 3D sensors in our hearing aids enable them to detect when a wearer falls, and send alert messages to selected family members or caregivers. Not only will wearers benefit from our best sounding hearing aid ever, they and their loved ones can also enjoy increased peace of mind.
