Project Description

This project consists of design, permitting, and construction of approximately 3.0 +/- miles of sidewalks, wayfinding signage, and lighting. The sidewalks will be located on one side of the road. The location will be determined after the roadway corridor is surveyed and assessment of the existing conditions has been completed

Project Progress/Status

Existing condition information is being collected by survey, environmental and geotechnical investigation. Capital Projects is planning to hold a Design Workshop on October 2, 2024 from 5 p.m. to 7 p.m. at Lemon Bay Park Community Room with the Englewood CRA and the public to review the preliminary alignment, design elements, opportunities, and the decision matrix. All design stages will commence following input from this workshop.
